Please be sure that personnel costs can be traced back to original documents detailing the account to which personnel hours are billed. In addition, all invoiced personnel costs must match the scope of work (work plan).

If the County plans to seek reimbursement for vehicle mileage, the documentation for mileage reimbursement must be tracked separately from all other programs and documentation must be

available to support the reimbursement. In addition, all invoiced vehicle costs must match the scope of work (work plan). On a related note, mileage rates used on invoices must be the same as contained in the work plan. CDFA will send an email that will notify counties of new rates (current rate \$0.54) if the federal mileage rate changes during the term of the agreement.

Reimbursement for the amount of salaries and/or benefits for employees under this agreement cannot exceed the gross daily rate of a GS-15, Step 10, base salary for US Government employees in effect during the period in which the expense was incurred as defined in the General Pay Scale program notice posted on the Internet at <http://www.fas.usda.gov/programs/resources/general-pay-scale>.

All other expenses (travel, supplies, communications, etc.) for which the County will seek reimbursement under the cooperative agreement must be directly related to the cost of administering and conducting the program and documentation must be available to support the reimbursement. In addition, all invoiced expenses must match the scope of work (work plan).

The following citations are requirements outlined in OMB Circulars and Federal Cost Principles applicable to your agency/organization.
