

To the Tres Pinos Water Board,

Upon hearing at the last Board meeting on July 28 that we no longer have Director's Insurance and a new policy is not obtainable, I submit my resignation from the board as of that same meeting. When the district is able to find new insurance for the directors I would be happy to return to my position.

Summary

Elected to the Tres Pinos Water Board starting January 1, 2015 for a 4-year term. On July 28, 2016 I resigned when it became known that we couldn't get Director and Officer's Insurance. Since then the office manager of the District has obtained two possible quotes for P & O insurance. With this in place I would like to resume the remaining two years of my term.
