PROCLAMATION

“National Health Center Week 2020”

WHEREAS: For over 50 years, Community Health Centers have provided high-quality, affordable, comprehensive primary and preventive health care in our nation’s underserved communities, delivering value to, and having a significant impact on America’s health care system.

WHEREAS: Community Health Centers are a critical element of the health system, serving both rural and urban communities, and often providing the only accessible and dependable source of primary care in their communities. Nationwide, Community Health Centers serve one in every five residents of rural areas.

WHEREAS: Community Health Centers serve as beacons of essential resources and support in testing and treatment in the face of the global coronavirus pandemic, and will continue to offer reliable, affordable, high-quality care against COVID-19 for America’s most vulnerable and underserved communities.

WHEREAS: Every day, Community Health Centers develop new approaches to integrating a wide range of services beyond primary care, including oral health, vision, behavioral health, and pharmacy services, to meet the needs and challenges of their communities.

WHEREAS Community Health Centers are governed by patient-majority boards, ensuring that the patients of each health center are engaged in their own health care decisions.

WHEREAS: Community Health Centers are locally owned and operated small businesses that serve as critical economic engines, helping to power local economies by generating \$54.6 billion in economic activity in some of the country’s most economically-deprived communities.

WHEREAS Community Health Centers nationally employ more than 236,000 people, including physicians, nurse practitioners, physician assistants, and certified nurse midwives who work as part of multi-disciplinary clinical teams designed to treat the whole patient.

WHEREAS The Community Health Center model continues to prove an effective means of overcoming barriers to healthcare access, including geography, income and insurance status - improving health care outcomes and reducing health care system costs.

WHEREAS Community Health Centers are on the front lines of emerging health care crises, providing access to care for our nation’s veterans, addressing the opioid epidemic, and responding to public health threats in the wake of natural disasters.

WHEREAS National Health Center Week offers the opportunity to celebrate America's over 1,400 health center organizations with over 12,000 service delivery sites, their dedicated staff, board members, patients and all those responsible for their continued success and growth since the first health centers opened their doors more than 50 years ago.

NOW, THEREFORE, the Board of Supervisors of San Benito County, do hereby proclaim August 9th-15th, 2020 as National Health Center Week. I encourage all Americans to take part in this week by visiting their local Health Center and celebrating the important partnership between America's Community Health Centers and the communities they serve.

In witness of the approval of this proclamation by the Board of Supervisors of San Benito County on this 4th day of August 2020.

Jaime De La Cruz, Chairman
San Benito County Board of Supervisors
