# Beyond the Blueprint

California is moving Beyond the Blueprint to safely and fully reopen the economy.

As of June 15, 2021, the Governor terminated the executive orders that put into place the **Stay Home Order** and the **Blueprint for a Safer Economy**. He also phased out the vast majority of executive actions put in place since March 2020 as part of the pandemic response, leaving a subset of provisions that facilitate the ongoing recovery.

The new [public health order](#) effective June 15 supersedes all prior health orders. The order has limited restrictions, only related to masking and mega-events, as well as settings serving children and youth pending an expected update to the K-12 schools guidance by the Centers for Disease Control and Prevention.

## Restrictions that ended on June 15 include:

- Physical distancing
- Capacity limits on businesses
- County tier system

## Beyond the Blueprint Continuing Safety Measures

### **Masks:**

- Vaccinated people can come together without masks in most circumstances.
- People who are unvaccinated must continue to wear a mask indoors in public settings to protect themselves and others.

Also, there are some settings where masking is still required for everyone, such as:

- Public transit
- Homeless shelters
- Hospitals
- Indoors in K-12 schools, childcare, and other youth settings
- Long-term care facilities

### **K-12 schools, day camps, overnight camps, and childcare**

- California continues to follow current COVID-19 public health [guidance for K-12 schools](#) until further updates from the CDC.
- Current [guidance for childcare programs and providers](#) remains in effect.

### **Mega-events**

- Mega-events are indoor events with 5,000 or more people and outdoor events with 10,000 or more people.

### **Workplace Safety:**

- There are no physical distancing or capacity limits for businesses and activities. Most businesses are required to maintain compliance with California's [COVID-19 Prevention Emergency Temporary Standards](#) (ETS), which include current [public health guidelines](#).
- Visit [saferatwork.ca.gov](https://saferatwork.ca.gov) to learn more about COVID-19 workplace requirements.
