EXHIBIT “A” FINDINGS AND DETERMINATIONS

(A) **Consistency with 2035 San Benito County General Plan.** Local zoning and land use regulatory ordinances must be consistent with the general plan. (Gov. Code § 65860 (a).) The 2035 San Benito County General Plan establishes Guiding Principles, Goals, Policies, Standards and Implementation Measures, including the following:

1. Principles:
 - a. Ensure that agriculture and agriculture-related industries remain a major economic sector by protecting productive agriculture lands and industries, promoting new and profitable agricultural sectors, and supporting new technologies that increase the efficiency and productivity of commodity farming.
 - b. Encourage agriculture that is locally-produced, profitable, and attracts related businesses.
 - c. Expand and diversify the local economy by supporting businesses, supporting jobs for the diverse population, and capitalizing on the county’s natural and human resources.
 - d. Support existing and establish new local businesses that are based on industries that are innovative, technology-based, and sustainable.
 - e. Support programs that educate the local workforce on conventional, productive, sustainable, and organic agriculture concepts; water conservation strategies; high-tech industries; and alternative energy production.
 - f. Support the county’s growing tourism industry.
 - g. Protect natural resources and open space areas from incompatible uses.
 - h. Preserve the county’s environmental quality and diverse natural habitats.
2. Goals and Policies:
 - a. LU-5.6 The County shall encourage visitor-oriented commercial uses that promote the local history, local economy (e.g. agriculture, wineries, recreation), and market locally-produced agricultural products.
 - b. LU-5.8 Live-Work Development The County shall encourage mixed-use developments to include live-work floor plans for residents who desire office, commercial, or studio space adjacent to their living space. (RDR)
 - c. ED-1 To sustain the long-term economic wellbeing of the county by promoting economic sustainability and diversification
 - d. ED-2 To support and promote the retention and expansion of existing businesses within the county
 - e. ED-3 To attract new high quality businesses and investment that complement the county’s rural character and provide high wage jobs for local residents

The Board of Supervisors finds that the business in the home offers numerous opportunities for robust economic development within San Benito County. Building upon and updating the existing ordinance language allowing the permitted use of home occupations and modifications to rural home enterprise provide revenue and employment opportunities.

Protection of the public health, safety, and welfare. Pursuant to Article XI, section 7, of the California Constitution, the County of San Benito ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens. Pursuant to the Planning and Zoning Law, Government Code section 65800, the Board of Supervisors may adopt ordinances to regulate the use of land as between industry, business, residences, open space, including agriculture and other uses, and for other purposes (Gov. Code § 65850). As set forth in San Benito County Code section 25.01.002, the purpose of county land use regulation is to promote and protect the public health, safety, peace, moral, comfort, convenience and general welfare, to protect the character and the social and economic stability of agricultural, residential, commercial, industrial and other areas within the county, and to obviate the menace to public safety resulting from the location and use of land adjacent to the highways.

The Board of Supervisors finds and determines that adoption of amendments to Chapters businesses in the home are necessary and appropriate for the protection and promotion of the public health, safety, and welfare and quality of life, while allowing for additional economic development that would not be in conflict with existing land uses. All existing land use restrictions on the operation of businesses in the home will help to ensure that businesses will function in a manner that continues to protect the natural environment and community safety, within the different zone districts to benefit the San Benito County economy.

B. Amendments not subject to the California Environmental Quality Act (CEQA)

The Board of Supervisors hereby finds that the adoption of amendments Chapters 25.29 of the San Benito County Code Business in the Home is not subject to review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, 14 California Code of Regulations, section 15061(b)(3), CEQA review is not required because it can be seen with certainty that there is no possibility that the adoption of the ordinance will have significant effect on the environment in that home occupations and rural home enterprises will be operated in existing structures and that any activities proposed would not have operational characteristics that at the exterior boundaries of the building site which would identify the premises as serving a nonresidential purpose and have minimal effect on the environment.
