Re: Proposal to Prepare a Development Impact Facilities Fee Study Update for San Benito County

Dear Mr. Valdez:

As a follow up to our recent correspondence, Willdan Financial Services ("Willdan") is pleased to submit the following scope of services, staffing, and budget to San Benito County ("County") in regard to preparing a public facilities impact fee update.

Scope of Services

Below is our proposed scope of services, which is described in detail by task. Willdan will perform the following tasks to assist San Benito County with the development impact fee report update.

Task 1: Revise Demographics

Objective: Update base year demographic assumptions to most recent available data.

Description: Willdan will update base year demographics to the most recently available data for population, dwelling units and employees. Base year demographic data is used to identify the standards for public facilities necessary to calculate a public facilities impact fee.

Task 2: Incorporate Revised Facility Costs

Objective: Incorporate latest facility planning into impact fee.

Description: Based on data provided by City staff, Willdan will alter the project list and costs to be funded through the public facilities impact fees to reflect the latest facility planning. Four facility categories are included in this analysis: law enforcement, fire, road maintenance and park.

Task 3: Update Facility Standards

Objective: Identify the public facilities facility standards based on latest demographic data and facility planning.

Description: Based on the data collected in Tasks 1 and 2, Willdan will identify the current and future facility standards for each of the facility categories included in the study (law enforcement, fire, road maintenance and park). Facility standards are used to determine the level of public facilities that new development will fund through the updated public facilities impact fee. Park facility standards will be updated to ensure new development funds the expansion of park facilities at the existing standard.

Task 4: Examine Five Additional Fee Categories

Objective: Perform nexus analysis for five additional fee categories.

Description: Willdan will use the demographic projections identified in Task 1 in concert with additional data to be provided by the County in order to examine potential fees for up to five additional fee categories. Additional categories may include, but are not limited to: health, behavioral health, emergency services, animal services, information technology, criminal justice, detention, or storm drainage. Specific categories to be examined to be determined during a conference call with County staff, based on facility needs and other policy considerations.

Using facility inventory and planned facility data provided by County staff, Willdan will identify the facility standards necessary to calculate impact fees for the five additional facility fee categories. Note that engineering analysis is not included in this scope of work.

Task 5: Calculate Fees

Objective: Provide a fee schedule reflecting the updated and additional development impact fees.

Description: Willdan will use the facility standards identified in Tasks 3 and 4 to allocate the cost of new public facilities to new development in the form of an impact fee. Fees will be calculated for single family and multi-family residential dwelling units. Fees will also be calculated for commercial, office and industrial nonresidential land uses. Draft tables documenting the impact fee calculation will be distributed to City staff for one (1) round of review, which will then be finalized in Task 5.

Deliverables: Draft fee tables.

Task 6: Prepare Report

Objective: Provide a report that documents the methodologies, adjustments and results.

Description: Based upon results from prior tasks, we will provide a draft report that fully documents the methodologies, data sources, project costs and other relevant information related to the impact fee update. Following one (1) round of comments from County staff, we will issue a final draft of the report

Deliverables: Administrative draft, final draft report.

Client Responsibility

The Willdan Team will rely on the validity and accuracy of the County's data and documentation to complete this project. The County of San Benito acknowledges that Willdan is relying upon the accuracy of the information provided by the County or their designees, and that Willdan shall not be liable for any inaccuracies contained therein. County shall reimburse Willdan for any costs Willdan incurs, including without limitation, copying costs, digitizing costs, travel expenses, employee time and attorneys' fees, to respond to the legal process of any governmental agency relating to County or relating to the project.
