## **Executive Summary**

The Five Year Development Impact Fee Report has been prepared by the County Administrative Office for the San Benito County Board of Supervisors for their review of the San Benito County's Development Impact Fee Program. This Five Year Development Impact Fee Report presents a comprehensive overview of the Development Impact Fee Programs in San Benito County for fiscal years 2013/2014 through 2017/2018, meeting the reporting requirements<sup>1</sup> of California Government Code sections 66001 and 66006 for the Five Year Development Impact Fee Report and the Annual Development Impact Fee Report for fiscal year 2017/2018. The information provided in this Report has been collected from the Auditor's Office, with reference to the County's Capital Improvement Plan, financial reports, and project and departmental budgets that are associated with impact fees. The Auditor's Office concurs with the financial data about each of these impact fee funds, as was reported in each of the five years and at year-end for fiscal year 2017/2018.

---

<sup>1</sup> This Report is prepared in compliance with the annual and five-year reporting requirements of California Government Code sections 66001 and 66006.

## **Introduction**

The County of San Benito has maintained a County Development Impact Fee Program since the late 1980s. The Program presently collects impact fees for Drainage, Traffic, Road Equipment, County Fire Protection, Law Enforcement, Criminal Justice Detention, Habitat Conservation, Parks and Recreation, Library Facilities, General Government, and Information Technology. These last three impact fees (Library Facilities, General Government, and Information Technology) are not reported on in this Report as they were not fully implemented before the close of the 2018 fiscal year.

This Report contains the specific information required to be made available to the public on an annual basis regarding each individual fund. The Report also presents all of the necessary information to allow the County Board of Supervisors to make the fee findings with respect to any development impact fee funds that remain unspent five years from the County's last reporting date. These State requirements are set forth in Government Code sections 66006(b) and 66001(d), described below.

### **California Government Code Section 66006(b)**

California Government Code subsection 66006(b) defines the specific reporting requirements for local agencies that impose AB 1600 development impacts fees on new development. For each separate fund established for the collection and expenditure of development impact fees, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the information shown below for the fiscal year:

- A brief description of the type of fee of each fund (pages 8-26);
- The amount of the fee (see APPENDIX G: Impact Fee Summary);
- The beginning and ending balance of the fund (Financial Summary Report);
- The amount of the fees collected and the interest earned (Financial Summary Report);
- Identification of each public improvement on which fees were expended, and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees (pages 8-26);
- A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an inter-fund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan , (page 28); and

- The amount of refunds made pursuant to subdivision (e) of Section 66001 and any allocations pursuant to subdivision (f) of Section 66001, (page 28).

### **California Government Code Section 66001(d)(1)**

California Government Code Section 66001(d)(1) requires the local agency to make certain findings with respect to that portion of the development impact fee fund remaining unexpended, whether committed or uncommitted, the fifth fiscal year following the first deposit into the fund and every five years thereafter those are:

- Identify the purpose to which the fee is to be put (page 8-28).
- Demonstrate a reasonable relationship between the fee and purpose for which it is charged (page 8-28).
- Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements; (page 8-28); and
- Designate the approximate dates on which the funding (described in subparagraph (C) of Section 66001) is expected to be deposited into the appropriate account or fund (page 8-28).

The pages following the Financial Summary Report provide the information described above with respect to each separate development impact fee fund.

**Notes:**

1. Other revenues: County Fire Impact Fund has accrued reimbursement revenue for the Fiscal Year 16/17 Fire Feasibility Study.
2. Transfers out: Transfers to General Fund or Capital Improvement Fund for expenditures on impact fee funded projects are identified in the County Fire Impact and Parks and Recreation impact section of this report, summary is found in the Statement of Revenue table. County Fire Impact fee transfers out covered cost of fire feasibility study. The Parks and Recreation Impact fee transfers covered costs related to Veterans Park improvement projects including irrigation and well projects. For more detail see completed project tables for each section (page 18 & 30).

## **Drainage Impact Fee**

### ***Purpose/Reasonable Relationship***

The purpose of the Drainage Impact Fee is to construct storm drainage facilities identified in the Santa Ana Creek Drainage Plan necessitated in whole or in part by new development to prevent inundation during a 100-year flood. The fee is based on the projected amount of development that will occur in the Santa Ana Creek drainage basin and the estimated cost of the improvements, as established in County Ordinance No. 529 (San Benito County Code Sections 5.01.020-.025). The fee is applicable to all new building permits issued in the Santa Ana Creek fee benefit area and was recently updated to reflect changes in drainage improvement construction costs.

A reasonable relationship between the Drainage Impact Fee and the purpose for which is charged is demonstrated by the fact that drainage improvements benefit new development in the area in which the fee is charged and which would be unnecessary but-for new development. The fee provides an equitable and uniform method for each new development to bear a proportionate cost of improvements within the various sub basins in the Santa Ana Creek Drainage Plan area. The amount of the Drainage Impact Fee is indicated on the most recently updated Building Impact Fee Summary, as shown in Appendix H to this Report.

### ***Benefit Area***

The Drainage Impact Fee is charged in an area of benefit that encompasses the portions of the County within the Santa Ana Creek drainage area as shown in Appendix G: San Benito County Drainage Impact. The County will benefit from the drainage improvements.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

All sources and amounts of funding which are anticipated to complete financing of incomplete improvements are listed in the notes to the Drainage Impact Fee Planning Projects Table, below.

### ***Approximate Dates on which Funding Will Be Deposited***

The approximate dates on which the funding is expected to be deposited into the Drainage Impact Fee fund are listed in the Drainage Impact Fee Planning Projects Table, below as notes.

#### Notes:

1. The drainage projects listed in the table alone will be funding entirely with the Drainage impact fee revenues.
2. Identification in this report is for compliance with the Government Code. It shall not constitute approval or impermissible pre-commitment to a project, until any necessary CEQA is completed and all necessary local, state or federal approvals, if any, have been obtained.

## **Traffic Impact Fee Fund**

### ***Purpose/Reasonable Relationship***

The Traffic Impact Fee was established pursuant to County Ordinance No. 554 (San Benito County Code Sections 5.01.250-263). The purpose of the Traffic Impact Fee is to mitigate the costs of transportation and transit facilities and adverse impacts necessitated by new development in San Benito County. New development generates an increased volume of traffic, which in turn leads to a more rapid degeneration of existing county roads and increased congestion. The need to repair, reconstruct, and expand the County's existing roadways is a direct consequence of new development. Furthermore, construction of new county roads and transit facilities also becomes necessary.

A reasonable relationship between the Traffic Impact Fee and the purpose for which it is charged is demonstrated by the updated Regional Transportation Impact Mitigation Fee (TIMF) Nexus Study prepared by Michael Baker International and adopted by the Board of Supervisors in March, 2016. That nexus study documents in further detail the reasonable relationship between the fee and the cost of the repair, reconstruction, and expansion of existing road facilities and construction of new roads to accommodate new development.

The amount of the Traffic Impact Fee is indicated in the Building Impact Fee Summary in Appendix G.

### ***Benefit Area***

The Traffic Developmental Impact Fees is collected in a benefit area covering most of the unincorporated area of the County as shown on the Regional TIMF Zones map in Appendix B: Traffic Impact Mitigation Fee Zone Map.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

Traffic impact fee revenue will continue to be used to fund the road improvement projects needed to mitigate the adverse impacts and to accommodate the traffic generated by new development. The Traffic Impact Fee Planned Projects Table, below, describes the projects that the County plans to fund in part or entirely with Traffic Impact Fee revenue, their total costs and, if funding is complete, the year project construction is estimated to commence. Additional sources and amounts of funding which are anticipated to complete financing of incomplete improvements, if any, are also listed.

### ***Approximate Dates on which Funding Will Be Deposited***

The approximate dates on which the aforementioned funding is expected to be deposited into the Traffic Impact Fee fund are also listed in the notes to the Traffic Impact Fee Planning Projects Table, below.

### ***Future Projects and Funding***

In addition, the County anticipates using Traffic Impact Fee revenues to fund the projects identified in the 2016 San Benito Council of Governments TIMF Update Nexus Study, prepared by Michael Baker

International. Roadway, bicycle, and regional trail improvement projects are included in the TIMF update. The list of projects and project costs funded by the TIMF is located in Appendix A, Regional Traffic Impact Mitigation Improvements. Non-fee funding sources include the State Transportation Improvement Program, the Congestion Management and Air Quality Program, the State Interregional Improvement Program, and Fuel Tax Subvention funds.

**Notes:**

1. Caltrans is overseeing this project; there is a collaborative cost allocation between the County and City of Hollister. Additional funding will come from the State and Federal Governments.
2. Measures G was approved on the November 6, 2018 ballot and will be an additional source of funding for the projects listed.
3. Intersections as identified in the 2016 Regional Transportation Impact Mitigation Fee Nexus Study.
4. Identification in this report is for compliance with the Government Code. It shall not constitute approval or impermissible pre-commitment to a project, until any necessary CEQA is completed and all necessary local, state or federal approvals, if any, have been obtained.

## **Road Equipment Impact Fee**

### ***Purpose/Reasonable Relationship***

The Road Equipment Impact Fee was adopted to provide funding to purchase the road equipment, for the repair, and construction of road facilities continues to be used for this purpose. The Fee was established by Resolution 89-54 pursuant to County Ordinance No. 554 (San Benito County Code Sections 5.01.250-263). As described in the Ordinance's findings, new development generates additional traffic which creates the need to repair, improve, reconstruct, expand county roads, and the need for additional road construction equipment. The nexus study for this fee documents a reasonable relationship between the fees and the cost of the road equipment needed to repair and reconstruct the existing and future road facilities needed to accommodate new development. In addition, larger residential and commercial buildings are often associated with more residents and workers and generate more vehicle trips than smaller buildings. Because the Road Equipment Impact Fee is based upon the square footage of the building a reasonable relationship between the Road Equipment Impact Fee and the purpose for which it is charged is demonstrated. The Road Equipment Impact Fee rates are indicated in the Building Impact Fee Summary in Appendix G.

### ***Benefit Area***

The Road Equipment Impact Fee is applicable throughout the unincorporated areas of the County. Those areas are outlined in Appendix D: San Benito County Unincorporated Area.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

All sources and amounts of funding which are anticipated to complete financing of incomplete improvements are listed in the Road Equipment Impact Fee Planning Projects Table, below.

### ***Approximate Dates on which Funding Will Be Deposited***

The approximate dates on which the funding is expected to be deposited into the Road Equipment Impact Fee fund are listed as notes to the Road Equipment Impact Fee Planning Projects Table, below.

## **Fire Protection Impact Fee**

### ***Purpose/Reasonable Relationship***

The Fire Protection Impact Fee was established pursuant to County Ordinance No. 639 (San Benito County Code Sections 5.01.280-296). The purpose of the fee is to finance fire protection facilities and other capital expenditures to keep pace with new development in the county. The ordinance enables any fire district providing fire protection services to unincorporated areas of the county to request the County to impose fire impact fees if the district prepares a study documenting the need for new fire protection facilities and equipment created by new development. In addition, a Fire Protection Impact Fee was adopted by resolution for the unincorporated areas of San Benito County serviced by the San Benito County Fire Department. All Fire Protection Impact Fee revenue is used to provide the fire protection facilities and equipment required to accommodate new development. In addition, larger buildings have potential for greater losses. Charging the fire impact fee by building square footage enhances the reasonable relationship between the fire impact fees and the purpose for which they are charged. The Fire Protection Impact Fee rates are indicated in the Building Impact Fee Summary shown in Appendix G. The nexus study for this fee documents a reasonable relationship between the fee and the cost to provide fire protection facilities and equipment to accommodate new development.

### ***Benefit Area***

The benefit area for the Fire Protection Impact Fee includes the unincorporated areas of the county serviced by the San Benito County Fire Department. The map shown in Appendix E: San Benito County Fire Service Area Map depicts the service area for the San Benito County Fire Department.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

## **Law Enforcement Impact Fee**

### ***Description/Purpose***

The Law Enforcement Impact Fee was established pursuant to County Ordinance 515. The purpose of the fee is to finance Law Enforcement Protection Facilities and Equipment necessitated by new development. As established in the findings of Ordinance 515 increasing public and private sector development requires construction or expansion of Law Enforcement Facilities and the acquisition of equipment for law enforcement purposes, in order to protect the health and safety of residents. Fees are to be used by the County to provide for capital facilities and equipment, including, but not limited to office construction, office expansion and equipment.

### ***Benefit Area***

Law Enforcement Impact fee is provided in the unincorporated area of the County shown on the map in APPENDIX D: San Benito County Unincorporated Area. The benefit area for this Impact Fee is Countrywide, therefore the fee is collected over the entire County.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

All sources and amounts of funding which are anticipated to complete financing of incomplete improvements are listed in the Law Enforcement Impact Fee Planning Projects Table, below.

### ***Approximate Dates on which Funding Will Be Deposited***

The approximate dates on which the funding is expected to be deposited into the Law Enforcement Impact Fee fund are listed in the Law Enforcement Impact Fee Planning Projects Table, as notes below.

## **Criminal Justice Facilities Impact Fee**

### ***Purpose/Reasonable Relationship***

The Criminal Justice Facilities Impact Fee was established pursuant to County Ordinance No. 574 (San Benito County Code Sections 5.01.310-325) a Capital Improvements Impact Fee. The Capital Improvements Development Impact Fee was established to defray the costs of capital improvements necessitated by new development projects in the County. Ordinance No. 574 permits the Board of Supervisors to establish fees for capital improvements by resolution, and specifically includes a particular focus on law enforcement facilities. As defined in the ordinance, law enforcement includes, without limitation, the Sheriff's Office, Probation Department, District Attorney, Board of Supervisors, Administration, County Counsel, Planning and Building, Health Department, and other departments to the extent that each is involved in the enforcement of state laws and county ordinances.

The Criminal Justice Facilities Impact Fee, also known as the Jail and Juvenile Hall Impact Fee, established pursuant to Resolution 93-107, provides funding for debt service costs for detention facilities impacted by inmate populations potentially generated by new development in the County. The amount of the Jail and Juvenile Hall Impact Fee is based on the share of costs of debt service for the jail and juvenile hall allocated to new development in the unincorporated area, along with the amount of development projected to occur in the unincorporated area. The Jail and Juvenile Hall Impact Fee has been used for this purpose and has been programmed toward funding for further expansion of the jail and juvenile detention facilities. Thus, there is a reasonable relationship between the Jail and Juvenile Hall Impact Fee and the purpose for which it is charged.

### ***Benefit Area***

Law enforcement is provided in the unincorporated area of the County shown on the map in APPENDIX D: San Benito County Unincorporated Area. The benefit area for the Jail and Juvenile Hall Impact Fee is County-wide.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

## **Habitat Conservation Impact Fee**

### ***Purpose/Reasonable Relationship***

The Habitat Conservation Interim Mitigation Fee (Habitat Conservation Impact Fee) was established by County Ordinance No. 541 (San Benito County Code Sections 9.19.001-008) to provide financing for the development and implementation of a Habitat Conservation Plan and issuance of a Section 10(a) permit under the Endangered Species Act of 1973. The Habitat Conservation Fee funds the mitigation of adverse effects upon federally protected endangered species impacted by new development, and provides for the acquisition of habitat as identified in the Habitat Conservation Plan.

The balance of the Habitat Conservation Impact Fee revenue will be used to fund habitat conservation planning activities conducted by County staff and by consultants for the purpose of developing the Habitat Conservation Plan for the areas identified in Appendix C: Habitat Conservation Zone Map. The fee is based on the size of the lots and the proposed buildings in the development, which demonstrates a reasonable relationship between the fee and the purpose for which it is charged because larger developments are likely to have greater impacts on endangered species. The Habitat Conservation Impact Fee rates are indicated on the Building Fee Summary in Appendix G.

### ***Benefit Area***

The Habitat Conservation Fee is imposed within the area designated as the Habitat Conservation Plan Preliminary Study Area, which comprises certain lands located in the unincorporated areas of the County. The map entitled Appendix C: Habitats Conservation Zone Map presents the Habitat Conservation Plan Preliminary Study Area.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

## **Parks and Recreation Impact Fee**

### ***Purpose/Reasonable Relationship***

The Park and Recreation Impact Fee was established pursuant to County Ordinance No. 542 (San Benito County Code Sections 5.01.120-126). The purpose of the Parks and Recreation Impact Fee is to acquire land and equipment and to construct recreational improvements to accommodate the County's increased resident population generated by new development. Park and Recreation Impact Fee revenue may also be used as local match for state and federal grants-in-aid programs for park and recreation development. County Resolution 2001-112 established the amount of the fee and a planned list of park facility improvements needed to accommodate the projected scope of new development in the unincorporated area of the County. A reasonable relationship between the fee and the purpose for which it is charged is demonstrated by the continuing need to provide outdoor and recreational opportunities for residents of the County. The Park and Recreation Impact Fee rates are indicated on the Building Impact Fee Summary located in Appendix G.

### ***Benefit Area***

The benefit area for the Park and Recreation Impact Fee is the unincorporated areas of the County as shown in Appendix D: San Benito County Unincorporated Area.

### ***Sources and Amounts of Funding Anticipated to Complete Financing of Incomplete Improvements***

### **Note #2 - Refunds Payable**

When the County no longer needs the funds for the purposes collected, or if the County fails to make required findings or perform certain administrative tasks prescribed by AB 1600, the County may be required to refund, on a prorated basis, to owners of the properties upon which the fees for the improvement were imposed, the monies collected for that project and any interest earned on those funds. At this time, all fees being collected pursuant to County Impact Fee Ordinances and Resolutions have been earmarked for current or future capital projects necessary to maintain the current levels of service within existing service areas to serve new development.

### **Note #3 - Additional Impact Fees**

The following impact fees will be included in the next fiscal year's and five year's reports as fees are collected.

#### **A. Library Facilities Impact Fee**

The Library Facilities Impact Fee was established pursuant to County Ordinance No. 945. The purpose of the fee is to fund the cost of certain library facilities, the need for which is directly or indirectly generated by new development proposed within the County.

#### **B. Information Technology Impact Fee**

The Information Technology Impact Fee was established pursuant to County Ordinance No. 962. The purpose of the Information Technology Impact Fee is to fund the cost of information technology infrastructure and equipment, the need for which is generated by new development within the County.

#### **C. General Government Impact Fee**

The General Government Impact Fee was established pursuant to County Ordinance No. 962, the purpose of which is to fund the cost of general government facilities necessitated by new development within the County.

#### **D. Detention Facilities Impact Fee**

The Detention Facilities Impact Fee was established pursuant to County Ordinance No.962. The purpose of the Detention Facilities Impact Fee is to fund the cost of detention facilities, the need for which is generated by new development within the County.
