ATTACHMENT A

Scope of Services

Upon approval of this contract, Contractor, for County's benefit shall provide the following services for the existing jail and new jail facilities controls:

Contractor shall:

1. Provide programming and necessary hardware to allow the new touch screen to replace the existing touch screen workstation to control the existing jail. The new touch screen will also be capable of operating in a takeover mode of the new jail facility, such that control can be switched from the new Central Guard room to the existing Central Control room. When in takeover mode, the new Central Control touch screen will have the capability to take over the new booking area as well.
2. The new CCTV monitoring station has the capability to view the cameras from the new facility to perform camera select and call-up functions. This work station will be programmed to perform the same functions for the cameras on the existing system.
3. Program new intercom master station to facilitate intercom function from the touch screen station for both existing jail intercoms and new jail calls when in takeover mode.
4. Furnish and install new intercom head end to replace existing intercom head end.
5. Furnish and install necessary network head end at existing control room to accommodate the new touch screen and associated CCTV and intercom equipment.
6. Furnish and install required wire and cabling necessary to complete the connections from the new facility system to the existing control system.
7. Provide as-built drawings of all new equipment terminations furnished under this scope of work.

Exclusions:

1. Raceway between existing control room and new communications room 132D (it is assumed the new 2" conduit installed for the new building will be available for any subsequent cables required).
2. Local 120VAC power in existing control room.
3. UPS power for all security electronics.
4. Local cabinet and console space for new equipment in existing control room (it is assumed the space made available by removal of the existing equipment will accommodate the new equipment).

Additional Clarifications:

- This contract assumes Contractor will be able to use the existing Allen-Bradley PLC and associated I/O, relays, terminals and power

supplies where the door locks, door position switches, lighting, telephone, and outlet circuits terminate.

- The maps (graphics) will be designed with the same screen areas as the existing maps however with the same graphic look and filed as the new jail addition.
- The existing system has no interface to the existing CCTV system. This contract includes an interface between the existing CCTV system and the new control and touch screen workstations to allow for camera selections and call-ups.
- This contract does not include any changes to the new facility touch screen. Specifically, the new facility touch screen will only have control of the new jail addition, while this contract will give the new touch screen in existing control the ability to take over the new jail facility and control both facilities from one location.
- Due to the amount of equipment and limited access into the control console where all of the equipment is contained, it will not be possible to switch over the control equipment without considerable down time. The facility should plan for 2-4 weeks of down time during the switchover time.
- It is estimated that this work will take roughly nine (9) months to complete.

CONTRACTOR further covenants that, in the performance of this contract, no subcontractor or person having such an interest shall be used or employed.

C-10. COMPLIANCE WITH APPLICABLE LAWS.

CONTRACTOR shall comply with all applicable federal, state and local laws now, or hereafter, in force, and with any applicable regulations, in performing the work and providing the services specified in this contract. This obligation includes, without limitation, the acquisition, and maintenance of any permits, licenses, or other entitlements necessary to perform the duties imposed expressly or impliedly under this contract.

This contract has been arrived at through negotiation between the parties. Neither party is to be deemed the party which prepared this contract within the meaning of California Civil Code Section 1654.

C-15. SEVERABILITY.

The exercise of any single right, option, election, power or remedy shall not, in any way, impair any other right, option, election, power or remedy until all duties and obligations imposed shall have been fully performed.
