What is our Main Goal?

Protection of Life Property and the Environment

Everyone is a Safety Officer!

Every firefighter is to be trained to do the job below them and the job above.

"Our essential duty and number one priority is to deliver the best possible Customer Service!"

California Law (PRC 4291)

4291 Section (3)

An insurance company that insures an occupied dwelling or structure may require stricter requirements to prevent the spread of wildfire up to the property line

It can include rebuilding of the structure

WILDFIRE IS COMING.
ARE YOU READY?

Defensible Space is your property's front line defense against wildfire. Creating and maintaining defensible space around your home can dramatically increase your home's chance of surviving a wildfire and improves the safety of firefighters defending your property. 100 feet of defensible space is required by law.*

ONE LESS SPARK ONE LESS WILDFIRE

*For more information on creating defensible space and legal requirements visit
READYFORWILDFIRE.ORG

TWO ZONES MAKE UP THE REQUIRED 100 FEET OF DEFENSIBLE SPACE:

ZONE 1: 30 feet of Lean, Clean & Green

1. Remove all dead plants, grass and weeds.
2. Remove dead or dry leaves and pine needles from your yard, roof and rain gutters.
3. Keep tree branches 10 feet away from your chimney and other trees.

ZONE 2: 30–100 feet of Reduced Fuel

4. Cut or mow annual grass down to a maximum height of 4 inches.
5. Create horizontal spacing between shrubs and trees.
6. Create vertical spacing between grass, shrubs and trees.

Use Equipment Properly to Keep from Sparking a Wildfire

7. Mow before 10 a.m., and never on a hot or windy day. String trimmers are a safer option (vs. lawnmowers) for clearing vegetation.

VERTICAL SPACING
Large trees do not have to be cut and removed as long as all of the plants beneath them are removed. This eliminates a vertical "fire ladder."

HORIZONTAL SPACING
Create horizontal and vertical spacing between plants, the amount of spacing will depend on how steep the slope is and the size of the plants.

Hollister Fire Department

Prepare your Evacuation Plan

1. Once completed, practice day and night.
2. Know the law!

California law authorizes personnel to restrict access-violation is a misdemeanor

3. Remember the 6 P's

   People and pets

   Papers, phone numbers and documents

   Prescriptions

   Pictures

   Personal computer

   Plastic-credit cards and cash

4. Assemble an Emergency Supply Kit

   3-7 days

ALWAYS KEEP A STURDY PAIR OF SHOES AND FLASHLIGHT NEAR YOUR BED AND HANDY IN CASE OF A SUDDEN EVACUATION AT NIGHT.
